EXCEPTIONAL MANOEUVRABILITY. EFFICIENT. RELIABLE. IN ONE WORD: FUNCTIONAL.

ARA 66 BM 100

- The easy to operate, compact ride-on scrubber dryer is ideal for the daily cleaning of among others clinics and hospitals, smaller to medium industrial buildings and markets with narrow alleys and checkout zones.
- Battery capacity up to 320 Ah 5 for longer working time of up to 8 hours.
- Continuous Rugged mechanics instead of electronics: simple operating switches to turn the machine on and off and for forward and backward movements. Mechanical lowering of brushes and squeegee.

Service- and maintenance-friendly: the recovery tank can be swiveled to the side, making components and battery fully accessible.

- Easy to transport: with an overall length of just 138 cm both models fit into all common lifts.
- The rear-wheel drive provides for good traction, the extremely tight turning radius of 1.9 m enables the use in multiple applications, such as narrow corridors and hallways.
- C) Effortless and safe to use: ergonomic operator's seat with good all-around visibility.
- Environmentally friendly: all plastic parts and steel components are 100% recyclable, the optional chemical dosage provides for a consistently high cleaning level with a low consumptions of cleaning products.
- Customized and adapted to the cleaning task: the silent version works at a reduced noise level of only 60 dB (A) and features an integrated battery charger as well as a security-kit for advanced security when used in facilities that are open to the public.
- Optional: Various tyre variants for optimum adaption to diverse working conditions.
- on noBAC® version optional: antibacterial tanks for every kind of sites with stringent hygiene requirements according to HACCP concept or following hygiene plan.
- And: made in Germany.
