THE EXPERT FOR DAILY CLEANING.

E 500E

- Robust single-disc machines 'Made in Germany' – for over 70 years. For daily, long-term use.
- With 1200-watt performance, weight of 42-kilogram and a 500-millimetre working width, this is the right machine for large surfaces and demanding tasks such as crystallization of stone flooring or stripping of any other hard flooring.
- The low-speed machine has planetary gearing with three wear-free helical planet gears that distribute the force evenly over the entire working width. That means quite running and easy steering. The maintenance-free planetary gearing and the powerful 1200 W motor are perfectly matched and guarantee high performance at all times and a long service life.
- Work safely and with less operator fatigue: includes continuously variable handle grip and a safety button to prevent accidental operation.
- The body casings are made from Aluminium.
- Large operating range as standard: 12-metre waterproof and kink-proof mains cable.
- Flat construction to fit under radiators, pipes and shelves.
- The rubber bumper ring protects both the machine and the working environment.
- Various accessories available depending on use: tank, sprayer, suction unit with ring for dust-free operation and additional weights for increased surface pressure.

E 500E

L x W x H	480 x 630 x 1215 mm
Working width	500 mm
Ground clearance max.	145 mm
Working height max.	305 mm
Noise level	63 dB(A)
Weight	42 kg

ELECTRICAL DATA

Rated voltage	230 V / 50 Hz
Power total	1200 W
Mains cable	12 m

BRUSHES AND PAD HOLDERS

Speed	140 rpm
